

REISSUE APPLICATION: DECLARATION BY THE INVENTORS

Docket Number (Optional)

23885-08201

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,278,266, granted August 21, 2001, and for which a reissue patent is sought on the invention entitled: SYMMETRICAL POWER GENERATOR AND METHOD OF USE, the specification of which

- ☐ is attached hereto.
- ☒ was filed on August 21, 2003 as reissue application number 10/647,067 and was amended on _____

(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information that is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This is a broadening reissue to obtain claims that do not require all of the limitations of the claims as issued, by which limitations the patentee claimed less than it had the right to claim in the patent. At least one error being relied upon as the basis for reissue is the inclusion of the limitation "a center tap terminal located at the point of mean voltage differential between the two output terminals of said output winding, wherein said center tap terminal is grounded" in claim 1. This error was corrected in, for example, new claim 5, which includes the limitation "a center tap terminal for coupling to an electrical ground, the center tap terminal further coupled between the first and second conductors."

23885-08201

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named inventor, I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the United States Patent and Trademark Office connected therewith.
